

BJT Academy Guide 2025

New to BJT this year? We have thoughtfully designed our class timetable to provide the best possible training and development for young, emerging performers in Musical Theatre.

Our goal is to serve as a comprehensive hub, equipping your child with the skills necessary to pursue a successful career in professional theatre and beyond.

This document will layout the following

How to Enrol

ACADEMY OVERVIEW

BJT offers three distinct class types: Academy Training, Academy Workshops, and Academy Masterclasses. These classes are designed to complement one another, ensuring comprehensive coverage of all key areas in musical theatre development and training. Our academy is structured to provide a well-rounded curriculum, leaving no aspect of performance training overlooked. Each class type has been thoughtfully developed to work seamlessly together, providing a holistic approach to skill development.

ACADEMY TRAINING CLASS

This curriculum-based program has been crafted by our BJT team to guide students through a progressive year-by-year training and development curriculum, providing a comprehensive foundation in musical theatre.

To cater to the diverse needs and developmental stages of students, these classes will be organised into four main groups:

- 1. Grades 1 to 3: Tailored to introduce the fundamentals of musical theatre to the youngest performers, laying a solid groundwork for future growth.**
- 2. Grades 4 to 6: Building on the basics, this intermediate level aims to expand students' skills and understanding of musical theatre, fostering greater creativity and expression.**
- 3. Grades 7 to 9: Geared towards the adolescent years, this stage of the program focuses on refining techniques and developing a deeper appreciation for the art form.**
- 4. Grades 10 to 12: Targeting the final years of school, this advanced level offers a comprehensive and sophisticated exploration of musical theatre, preparing students for potential professional pursuits.**

Designed and developed by seasoned industry professionals, this course promises to be an exceptional avenue for students to enhance their skills across all facets of musical theatre. The incorporation of real-world insights ensures that the training aligns with current industry standards, providing students with relevant and practical knowledge. Enrolling in these classes at BJT offers aspiring performers a unique opportunity to nurture their passion, refine their talents, and embark on a transformative journey within the vibrant realm of musical theatre.

ACADEMY WORKSHOPS

Tailored for aspiring actors aged 5 to 18, this immersive experience is designed to be both fun and engaging. Join us for a unique in-class audition and rehearsal process, guided by industry professionals, as we prepare for an end-of-term in class performance for family and friends.

In the weekly workshop process your child will learn songs, scenes, and dances that will not only showcase their talents but also contribute to the positive atmosphere of the workshop. The collaborative and supportive environment ensures an amazing experience for participants of all ages.

Workshop also serve as the perfect preparation for our School Holiday MainStage Productions as we always line up our workshop classes with shows that we have coming up in our BJT Season.

The skills and confidence gained in our workshop will set the stage for an extraordinary performance.

Don't miss out on this spectacular opportunity to join us for a weekly dose of creativity and fun at our BJT Workshops!

ACADEMY MASTERCLASSES

Masterclasses at our academy cover a diverse range of theatrical disciplines, offering focused and intensive training in specific areas of the performing arts. These sessions concentrate on honing expertise in a particular domain.

These specialised classes prove invaluable for students encountering difficulties in particular areas of their artistic journey. It's not uncommon for aspiring performers to feel that a specific skill might be hindering their audition success or preventing them from securing a coveted role. In response to this common concern, our Masterclasses are carefully designed to empower students by transforming perceived weaknesses into strengths.

By dedicating focused attention to individual facets of performance, students can refine their skills, build confidence, and ultimately enhance their overall capabilities. The intention is to create a supportive environment where students can address specific challenges head-on, fostering personal and artistic growth. Our goal is to empower each student to overcome obstacles and excel in every aspect of their Musical Theatre pursuits.
